

spinvalis 

OPREMANJE OBJEKATA

Povijest

Tvrtka je započela svoj rad pod nazivom „Lipa”, 1950. godine s desetak zaposlenih. Nakon mnogih uspona i padova, uloženog napora, znanja i rada, 1978. godine, društveno poduzeće „Lipa” prerasta u društveno poduzeće Spin Valis, vodeću drvnu industriju u proizvodnji namještaja iz masiva s uspješnim poslovanjem na domaćem i inozemnom tržištu. Spin Valis d.d. 2002. godine osniva tvrtku

kćer Valis Fagus d.o.o. s 85 zaposlenih radnika, koja je 2009. i 2010. godine dobila prestižnu nagradu Gazela za brzorastuće poduzeće s transparentim poslovanjem koje predstavlja izvrsnoga poslovnoga partnera.

Danas

Danas je Spin Valis dioničko društvo koje se bavi proizvodnjom namještaja, piljene grude i elemenata i zapošljava oko 500 ljudi. Zahvaljujući izvršnosti i kvaliteti preko 85% svojih proizvoda plasira na inozemno tržište, u tridesetak zemalja, a poslovno partnerstvo s najuglednijim europskim proizvođačima i trgovačkim lancima namještaja potvrda je ozbiljnog, pouzdanog i konkurentnog partnera.

Stoljetno hrastovo i bukvino drvo, moderna tehnologija, dizajn, vrijedne ruke 500 radnika i tradicija duga 65 godina pretvorila je snagu prirodnog drva u liniju visokokvalitetnog hrvatskog proizvoda primjerenoj suvremenom čovjeku i europskoj kulturi življjenja. Namještaj Spin Valisa d.d. zapažen je i izuzetno cijenjen na tržištu Europe i svijeta čime potvrđuje svoj položaj lokalnoga i regionalnoga lidera u proizvodnji visokokvalitetnog namještaja iz masiva.

About us

History

The company started its operation under the name "Lipa" in 1950, employing around ten workers. After many ups and downs, invested efforts, knowledge and work, in 1978, social enterprise Lipa grew into social enterprise Spin Valis, the leading lumber and wood-processing industry in solid wood furniture production that is successful both at national and international markets. Spin Va-

lis d.d. 2002 founded a daughter company Valis Fagus d.o.o. with 85 employees, which received a prestigious award "Gazelle" for a fast-growing company with transparent business operation that is also a great business partner.

Today

Today, Spin Valis is a joint stock company engaged in furniture manufacture, sawing lumber and components and employing approximately 500 people. Owing to its excellence and quality it exports over 85% of its products to the international market, in about thirty countries, and business partnership with the most prestigious European manufacturers and furniture chain stores are a testament of a serious, reliable and competitive partner.

Centennial oak and beech wood, modern technology, design, industrious hands of 500 employees and 65 years of tradition transformed the power of natural wood into a line of a high-quality Croatian product adapted to the modern man and European culture of living. The furniture by Spin Valis d.d. is renown and highly appreciated on the European and global markets, affirming its position as a local and regional leader in the production of high-quality solid wood furniture.

Ekologija

Spin Valis d.d. kontinuirano ulaže sredstva i napore u proizvodnju zdravog i ekološki prihvatljivog namještaja, koristeći materijale za površinsku obradu u skladu zdravstvenim propisima EU, među kojima su i prirodna-bio ulja koja proizvod čine ljepšim i zdravijim. Drveni namještaj, završno premazan bilnjim uljima ekološki je neutralan i lako se restaurira. Uporabom tih materijala Spin Valis d.d. trajno štiti zdravlje svojih radnika, čuva okoliš, te vodi brigu o svojim kupcima proizvodnjom eko-namještaja raskošne ljepote.

Ecology

Spin Valis d.d. is continuously investing funds and efforts in the productions of healthy and ecologically acceptable furniture, using surface treatment materials in line with the EU health regulations, one of which are natural bio oils, which make the products healthier and more beautiful. Wooden furniture, with bio oil finishing coat is ecologically neutral and easily restored. By using these materials Spin Valis d.d. permanently protects the health of its employees, the environment and cares for its customers through the manufacture of eco-furniture of lavish beauty.

Misija

Naša misija je praćenje trendova i potreba tržišta proizvodnjom visokokvalitetnih modernih proizvoda iz masiva, kombinirajući složenije spojeve i druge vrste materijala koji kupcima pružaju namještaj iznimne vrijednosti i ljepote. Također ulaganjem u znanja i tehnologije, našim radnicima omogućavamo kvalitetne i sigurne uvjete za rad, a kao rezultat toga nastojimo našim suradnicima biti dugoročan, kvalitetan i pouzdan partner.

Mission

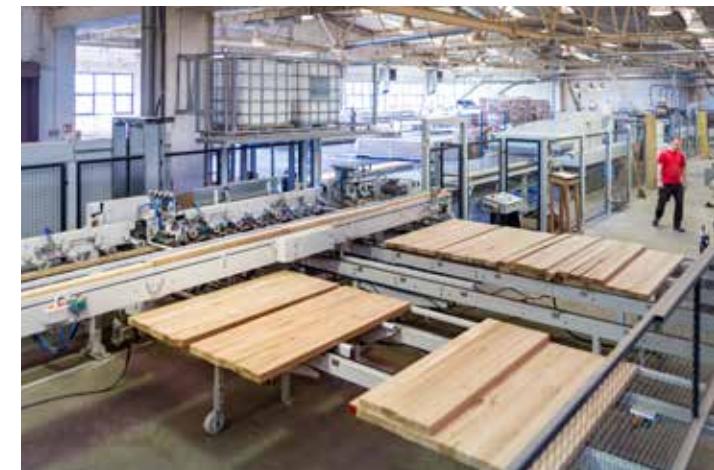

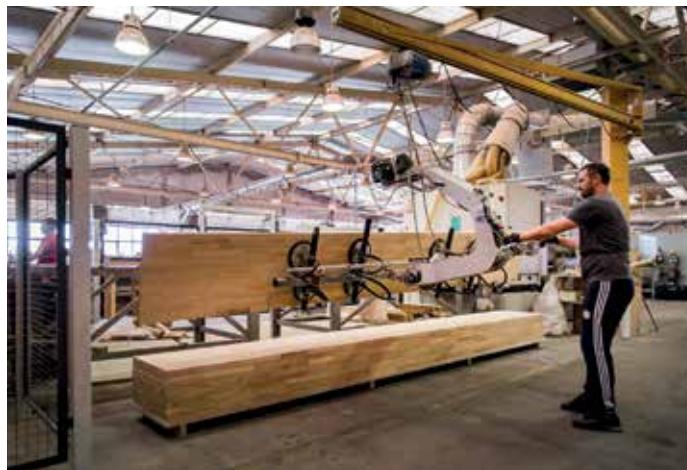

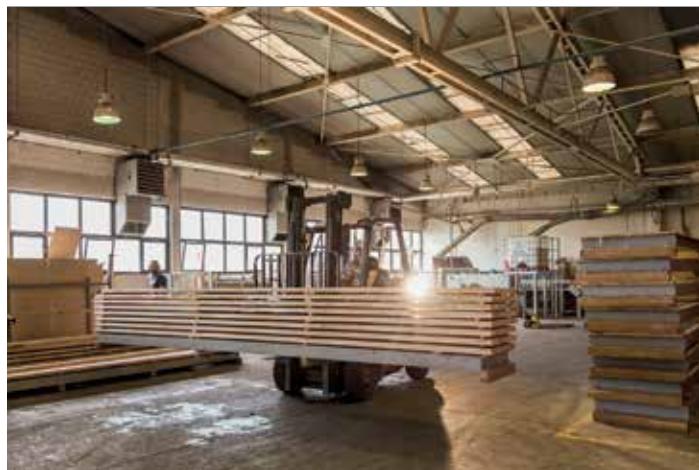

As there is great unused potential for energy production from renewable sources in lumber industry, Spin Valis d.d. set up, in accordance with European and global standards, a cogeneration plant for the production of electricity and thermal energy from wood biomass and, with the production of wood briquettes, completely adopted circular economy thus rounding off the entire production process in which there is no waste from the input of logs to the output of the final product.

Vizija

Vizija Spin Valis dd je usmjerena na trajan uspjeh investiranjem u budućnost. Spin Valis d.d. konstantno ulaže u nove tehnologije, znanje, marketing i dizajn te tako osvajamo nova tržišta i nove kupce u cilju jačanja naše konkurentnosti na međunarodnom i globalnom tržištu. U finalnoj proizvodnji cilj Spin Valisa je proizvoditi kvalitetan i trajan proizvod, modernog dizajna, te tako zadovoljiti potrebe suvremenog čovjeka.

Vision

The vision of Spin Valis d.d. is oriented on continuous success by investing into new technologies. Spin Valis d.d. constantly invests into new technologies, knowledge, marketing and design, thus conquering new markets and new customers in order to fortify our competitiveness on the international and global markets. In the final production, the aim of Spin Valis is to manufacture quality and long-lasting products of modern design, meeting the needs of a contemporary man.

Dizajn

Bitan faktor dizajna čini prilagođavanje interijera njegovoj namjeni. Dokazano je da je čovjek efikasniji u ugodnom radnom okruženju s ergonomski prilagođenim namještajem. Isto se odnosi i na životni prostor pojedincu; utjecaj boja, visina radnih površina, mnoštvo detalja prilagođava se pojedincu koji koristi navedeni prostor. Pri tome pomažemo prilagoditi prostor željenim uvjetima klijenata, bilo da se radi o životnom ili poslovnom prostoru.

Projektiranje

Unutar projekta opremanja nudimo usluge projektiranja i vodenja projekta do najsitnijih detalja, nudeći tako idejna rješenja prema tlocrtu objekta, razradu specifičnih tehničkih detalja, prijedlog troškovnika potrebnih radova, što se pokazalo veoma važno kod planiranja investicija. Pri tome pomažemo prilagoditi prostor željama najzahtijevnijih klijenata, unutar zadanog roka, što nam predstavlja nove izazove i zadovoljstva.

Proizvodnja

Moderna tehnologija i najnoviji CNC strojevi u kombinaciji sa ljudskim faktorom i timskim radom čine ključ kvalitete svakog proizvodnog procesa te daju plod vrhunske estetike i funkcionalnosti. Unutar naše tvornice, u centru Slavonije, proizvodimo visoko kvalitetan namještaj koji izvozimo u 30 zemalja diljem svijeta. Grupacija Spin Valis prostire se na 120.000 m² i obuhvaća 500-tinjak zaposlenih djelatnika.

Opremanje

Opremanje obuhvaća kontinuirani slijed dizajna, projektiranja, proizvodnje i drugih procesa potrebnih za završnu fazu izrade namještaja. Cilj i prioritet u segmentu opremanja je suradnja s dizajnerima i arhitektima unutar projekata, praćenje i implementiranje inovacija i trendova na svjetskom tržištu, primjena i korištenje različitih materijala te njihovo povezivanje u cjelini proizvodnog procesa (staklo, drvo, inox, MDF i sl.).

Cjelokupni proces opremanja obuhvaća dostavu i montažu po principu "ključ u ruke".

Design

An important factor in design is the adaptation of the interior to its use. It has been proven that people are more effective in a comfortable work environment with ergonomically adapted furniture. The same refers to an individual's living space; the impact of colours, the height of working surfaces, a myriad of details are adapted to the individual using the space. In doing so, we are trying to adapt the space to the client's desired conditions, whether it is a living or a business space.

Planning

Within the scope of equipping a space, we offer planning and managing the project down to the smallest details, providing preliminary plans according to the layout of the building, breakdown of specific technical details and a proposal of the bill of costs for the required works, which turned out to be very important in planning the investments. In doing so, we are also helping to adapt the space to the wishes of the most demanding clients, within the given deadline, which generates new challenges and satisfaction.

Manufacture

Modern technology and the newest CNC machines combined with the human factor and team work are key to the quality of every production process and result in very aesthetically pleasing and functional products. Within our plant, in the centre of Slavonia, we manufacture high-quality furniture that we export to 30 countries around the world. Spin Valis Group extends over 120,000 m² and includes approximately 500 employees.

Equipping

Equipping includes a continued progression of design, planning, production and other processes needed for the final phase of furniture production. The goal and priority in the equipping segment is cooperation with designers and architects within the scope of a project, following and implementing innovation and trends on the world market, application and use of various materials and their integration into the whole production process (glass, wood, stainless steel, MDF, etc.).

The whole equipping process includes delivery and assembly based on a turnkey principle.

REFERENTNA LISTA

Mnoštvo regija unutar Hrvatske opremljeno je našim ekskluzivnim namještajem, bilo da se radi o prodajnim mjestu, restoranu muzeju, hotelu, apartmanu, knjižnici, privatnom ili sakralnom objektu.
